The Story of Walter Leonard & Bridget Duff

2ND EDITION REVISED & EXPANDED

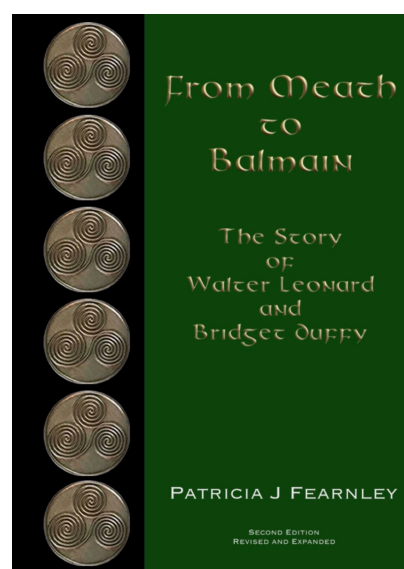

PATRICIA FEARNLEY

102 Pages in Full Colour

A previous edition of this book was published in 1989 for a reunion of descendants to celebrate the 150th anniversary of the couple's arrival in the Colony and I am pleased to announce that this second edition, the culmination of a further 29 years of extensive research, is now available for purchase.

Walter Leonard's birthplace has been identified and details are revealed of previously unknown events in Walter and Bridget's lives both prior to their transportation and during their lives in Australia.

The lives of the couple's surviving children, daughters Ellen, Mary, Margaret and Catherine, are brought to life in an entertaining narrative.
